Linda Murray
Assistant Principal

Dear Parent/Guardian:

Throughout the school year, the school or your child’s teacher may include photographs, videos, and examples of work of individual students or student groups on a school website or blog. Staff members may also occasionally include such images or work products in presentations for other educators. In instances where these artifacts are published, students will be identified by first name only. No last names will be used.

In an effort to respect your wishes regarding the use of your child’s image or work, we have provided below a form which will allow you to opt out of such publications of your child’s image or his/her work products.

Please sign the below if you **do not** grant permission for publication of your child’s image or work.

The school and my child’s teachers **may NOT** publish my child’s school work, his/her photograph, or visual or audio recordings on websites, blogs, or in presentations.
