

Summer Reading Assignment

As you read *The Disappearing Spoon* by Sam Kean, complete the following:

1. On note cards, write one fact you find interesting or think is important to know about each element discussed in the book. (Write the element name on one side of the card and the fact on the other. Include the page number in the book where the information is found.)
2. Use the information from your notecards to create a jeopardy game. A template for the game can be found using the following link: <http://jeopardylabs.com/build/>. It is your choice as to what categories you create and the questions/information you include.
3. Both the notecards and the game will be submitted for grading.

Summer Tutorial (Optional)

I will be available July 11-July 22 for assistance with the summer assignment or for tutorials on concepts with which you need support. If interested, email me with times when you are available.
